描述

简述：B5G终端版本V0.0.1_T06，终端获取到ip，上行ping不通

测试版本：V0.0.1_T06

问题描述：B5G终端版本V0.0.1_T06，终端获取到ip，上行ping不通

The screenshot shows a terminal window titled '192.168.2.44 - Xshell 5'. It displays a series of commands and their outputs. The session starts with a connection attempt from '192.168.2.44' which fails ('Connection closed by foreign host.'), followed by a disconnection message ('Disconnected from remote host(192.168.2.44) at 14:43:45.'), and a help prompt ('Type `help` to learn how to use Xshell prompt. [c:~]\$'). Subsequent commands show the user connecting back to the host ('Connecting to 192.168.2.44:22...'), establishing a connection ('Connection established.'), and navigating through the Linux system ('To escape to local shell, press `Ctrl+Alt+j`'). The user then runs several network-related commands: 'route add -net 192.168.8.0 netmask 255.255.255.0 dev ue_ue', 'ping 192.168.8.3', 'ping statistics', and 'ping 192.168.8.3'. The output of these commands is shown in the terminal window.

历史记录

#1 - 2025-10-25 11:37 - 李常

- 状态从 新建 变更为 进行中

#2 - 2025-10-29 11:25 - 李常

- 主题从 B5G终端版本V0.0.1_T06，终端获取到ip，上行ping不通 变更为 B5G终端版本V0.0.1_T06，终端获取到ip，过5分钟发起业务，上行ping不通
- 状态从 进行中 变更为 已关闭

超过5分钟因未做业务，基站释放了RRC连接。应属正常。
close。
